

OVERWATCH™ POWERED ACCESS GUARDING

**An Anti-Entrapment Secondary Guarding
Device For Scissor Lifts, Ensuring Users Are
Safe From Obstructional Hazards...**

Protects operators
when using elevated
scissor lifts from any
hazards that could
cause **shear** events
or **crushing**.

Patented sensor system will cut out if hazards are identified,
keeping the user safe whilst inside the machine.

Enables the user to drive the scissor lift while positioned out of
the machine 'Dog Walking', so that hazards can be safely
navigated.
