

PANEL ATTACHMENT FOR GENIE MICRO SCISSOR LIFT GS-1432M

**For Quick & Safe Attachment
of Panels Ready for Lifting...**

MEP Hire, in collaboration with the manufacturer Safe MEWP, has designed this panel attachment for the Genie GS™ 1432m Micro Scissor Lift.

This additional safety feature supports the secure and efficient installation of boards and sheets across the job site.

KEY FEATURES

- Additional safety feature, created from customer demand
- Increases safety on-site when lifting board and sheet materials
- Sliding brackets remove the need for chains and ties, reducing the time it takes to load materials
- Supports on-site best practices and adherence to site safety obligations
- For use with the Genie GS™ 1432m Micro Scissor Lift only
- Suitable only for use indoors.

Specifications

SAFE MEWP
BESPOKE MEWP SAFETY SOLUTIONS

Product Weight	14.1 kg
Trough Width	65 mm
Maximum Load (SWL)	60 kg
Maximum Material Width	1700 mm
Maximum Attachment Height	1275 mm
Maximum Attachment Height (Closed)	1135 mm
Maximum Attachment Width (Closed)	1130 mm
Maximum Side Load Force	329.07 pa*
Hire Code	020098
*Calculation based on the lifting of three 'Gyproc Core board' 598×3000 mm panels with a total weight of 50.1 kg plus the weight of the attachment (14.1 kg)	

Please note: It is the responsibility of the operator/user to ensure that the weights and dimensions of any panels to be lifted are obtained and the side loading force calculated correctly. The calculations must factor in any external factors that may be site specific.
